

Christmas Nativity Matching & Memory Game Set

1. Print all four sheets. You can laminate the sheets, and attach velcro to each cut-out image, and on the silhouettes. This would be great to use in the car, especially on a road trip!
2. Encourage your child to find the corresponding matching silhouette.
3. The completed nativity scene -sheet 3- may be used as a placemat or as wall art.
4. Cut out each square, shuffle the squares and turn each one face down on the table. Allow the youngest player to go first. On each turn, each player turns 2 cards over. If the cards match, the player gets to keep the pair. Challenge the kids to see who can find the most pairs.
