

# PINE CONE CHRISTMAS TREE CRAFT

Page 1 of 2

|                                |                   |
|--------------------------------|-------------------|
| <b>Supplies:</b> Pine cone     | White craft paint |
| Round wood slice               | Faux pearl beads  |
| Hot glue gun                   | Star charm        |
| Scissors                       | Cotton ball       |
| Craft foam sheet (brown color) |                   |

Cut out a small rectangular piece of brown colored craft foam sheet, and roll it into a tube-like pattern. Apply hot glue at the overlapping seam to secure the foam roll.

Stick the pine cone into one open side of the rolled foam trunk. Apply glue around the top edge of the foam roll to secure the pine cone in place.

Glue the other open end of the foam roll to a small wood slice.

# HANDMADE WITH LOVE

## PINE CONE CHRISTMAS TREE CRAFT

OLD FASHIONED CRAFTS

Page 2 of 2

Stick beads to the pine cone. Simply apply a drop of glue wherever you want to add a decoration and then place the bead on the glue.

A wire star charm is a lovely way to decorate the top side of the pine cone tree. You can fashion this with golden craft wire.

Glue the decorative star on the top side of the pine cone tree.

Add a stretched out white cotton ball on the wood slice around the base of the tree to create a winter scene.
